

The History Fair is a great way for 4th and 5th grade students to learn about the past by doing a fun and engaging project! There are five ways participate:

1. Create an exhibit
2. Produce a documentary film
3. Perform a performance
4. Create a web page
5. By writing a historical paper

All of the projects, except the historical paper, may be done as a group. If you are planning on creating a web page, please go to <https://website.nhd.org/>. This is the only approved site to create a web page for the project.

The History Fair is usually held in January but registration forms are due in December so put it in your calendar! Third graders may also participate but cannot go past the school level competition.

Your students should receive a registration form from his/her teacher, but if not feel free to ask for one.

If you have any questions please feel free to reach out to Mrs. Pham.
